

Postdoctoral Position: Plasma Theory

The Department of Physics and Astronomy at the University of Iowa is searching for a postdoctoral research scientist in theoretical and computational physics of magnetized high-energy-density plasmas. A Ph.D. in physics or a closely related field is required. Computational experience using particle techniques is desired, as is expertise in plasma kinetic theory. Applicants should submit a curriculum vita, a list of publications, a brief statement of research interests, and arrange for up to three letters of recommendation to be sent to Scott Baalrud <scott-baalrud@uiowa.edu>. Review of applications is currently underway and will continue until the position is filled. The University of Iowa is an equal opportunity employer and encourages applications from women, minorities, veterans and disabled persons.
